

# Eventlocation Senckenberg

## Museum & Jügelhaus

The Senckenberg Research Institute and Museum Frankfurt offers an exceptional setting to transform your corporate events into truly memorable experiences.

For your occasion, we turn the atria of the Senckenberg MUSEUM into an award-winning event venue. Dinosaurs, whales and mammoths form an iconic backdrop for distinguished evening receptions.

The preserved historic ballroom in the JÜGELHAUS provides the ideal stage for conferences and presentations, as well as a striking setting for evening events.

An exclusive "Dinner Under the Dinosaurs" or a reception in the Jügelhaus ballroom are just two of our established signature formats. The possibilities are as varied as your events.

# Unlike any other.

More than just an event space.

Senckenberg is so much more than just a museum. Founded in Frankfurt in 1817, we have been researching the natural world for over 200 years. Today, we operate eight research institutes and three natural history museums across Germany. At the heart of our work lies the communication of scientifically grounded solutions to urgent global challenges such as climate change and biodiversity loss.

Every event hosted in our venues opens a window to nature. Whether during guided tours through our exhibitions or casually over dinner, the fascination of the natural world is ever-present and inspiring – particularly within our iconic museum in Frankfurt.

Dinosaurs or mammoths, meteorites or volcanoes: our unique collection objects provide an extraordinary backdrop for your event while serving as powerful ambassadors for the diversity of nature.

# Senckenberg provides an extraordinary setting for your next event!

# Strong Partners for Your Event

For your event at **Senckenberg**, we work with selected preferred partners in certain areas.

These service providers ensure smooth operations and help guarantee that the specific requirements of our venue are met to the highest standard. In other areas, you are welcome to involve your own preferred partners and tailor the event according to your individual needs. In this way, we combine reliable expertise with your personal touch.

We collaborate with **two designated catering partners**. This structure allows you to choose between them while ensuring seamless processes and consistently high quality — an essential factor within the ongoing operations of the museum and research institute. For **event technical services**, you are also required to work with our contracted technical service partner.

Planning, commissioning and invoicing are handled **directly between you and the respective service provider**. Please also coordinate all requirements and the scope of the setup **in advance** to ensure a smooth and efficient event process.
